

Comic Strip #9

HOW DOES YOUR EDIBLE GARDEN GROW?

growarow.org

© VISIONS OF UTOPIA

WEEDS COMPETE WITH YOUR VEGETABLE PLANTS FOR SPACE, SUNLIGHT, NUTRIENTS AND WATER. DON'T IGNORE THEM! SO WEED AND BE MERRY!

REMOVE WEEDS WHEN THEY ARE SMALL BEFORE THEIR ROOTS BECOME ESTABLISHED.

USE A MULCH A COVER ABOUT 8-10 CM THICK BETWEEN THE ROWS AND PLANTS CAN BE MADE FROM MATERIALS SUCH AS BARK, COMPOST AND STRAW.

WATER BEFORE WEEDING OR WEED RIGHT AFTER IT HAS RAINED AS IT'S EASIER TO PULL OUT WEEDS FROM MOIST SOIL.
